Education

University of Wisconsin–Madison
Bachelor of Science in Data Science and Information Science

Expected May 2027

Work Experience

Office of Access, Inclusion & Compliance

Madison, WI

Information Technology and Communications Intern

Dec 2025 – Present

- Designing and optimizing department-wide request tracking and document management workflows using Microsoft Forms, Power Automate, and SharePoint to streamline data collection, routing, and staff access
- Audited and updated 120+ Language Access website posts for content accuracy, usability, and accessibility for multilingual community members
- Designed and implemented a post-service interpreter evaluation form that replaced a cumbersome reporting process and strengthened third-party invoice review and vendor accountability

Sinovation Ventures

Beijing, China

Information Technology Intern

May 2025 – August 2025

- Updated the company’s bilingual website using HTML, CSS, and JavaScript and revised 10+ web articles to improve content relevance and usability for international audiences
- Developed and deployed a Django-based monitoring system on Linux for 10+ servers, automating alerts and dashboard reporting to reduce manual checks by 80% and improve system reliability
- Tracked equipment leasing records and asset circulation, resolved 200+ employee support requests, and onboarded three interns through workflow documentation and hands-on training

Projects

BioKind Analytics

Madison, WI

Team Lead → Project Manager → Club President

March 2025 – Present

- Leading a team in analyzing and visualizing 92,000+ attendance records to identify participation patterns and support program planning and resource allocation for the Boys & Girls Club of Dane County (2026)
- Cleaned, analyzed, and visualized county-level socioeconomic data in R and Python to develop comparative benchmarks for stakeholders across Madison and Dane County (2025)

Healthy Meals Website

Madison, WI

UX Designer, Most Promising Solution Award

April 2026

- Collaborated on a 4-person team during an 8-hour UX design competition to redesign the Healthy School Meals for All website through rapid ideation, user-flow mapping, wireframing, and interactive prototyping
- Proposed a full-website redesign beyond the original scope and prototyped an interactive advocacy map connecting users with state senator contact information and 3 ready-to-use outreach templates

MadCoder Club

Madison, WI

Project Lead

September 2025 – March 2026

- Initiated a four-person web project to explore how students could share and access dining hall feedback, collaborating on site structure, interface design, and development of the static front-end
- Planned server-side and survey-data integration and independently designed and deployed a personal portfolio website using HTML and CSS
