

Sirui “Katrina” Ni

sni26@wisc.edu | (608) 621-8583 | [Portfolio Website](#)

Education

University of Wisconsin–Madison
Bachelor of Science in Data Science and Information Science

Expected May 2027

Work Experience

Language Access Department, Office of Access, Inclusion & Compliance

Madison, WI

Information Technology and Communications Intern

Dec 2025 – Present

- Redesigned Language Access request and interpreter evaluation forms to simplify data collection, clarify service steps, and improve invoice and vendor review
- Migrating service request records from Excel to SharePoint using Power Automate, data cleaning, and scripting to centralize records and streamline staff access
- Audited 120+ WordPress pages for content, usability, and WCAG accessibility while designing a SharePoint service guide outlining Language Access offerings

Sinovation Ventures

Beijing, China

Information Technology Intern

May 2025 – August 2025

- Updated the company’s bilingual website using HTML, CSS, and JavaScript and revised 10+ web articles to improve content relevance and usability for international audiences
- Developed a Linux monitoring system using Django to monitor 10+ company servers and network routers, automating alerts and dashboard reporting to reduce manual checks by 80%, improved system reliability
- Managed IT asset leasing and circulation, resolved 200+ employee IT requests, and onboarded 3 interns through workflow documentation and hands-on training

Projects

BioKind Analytics Club, UW-Madison Branch

Madison, WI

Team Lead → Project Manager → Club President

March 2025 – Present

- Partnered with Boys & Girls Club (nonprofit) and Dane County (government department), presenting semester-end findings to stakeholders and department leaders to directly support planning decisions
- Led student project teams in cleaning and analyzing 100,000+ data using R and Python, producing 50+ visualizations using Python and Tableau, including interactive maps and comparative dashboards
- As Club President, planned club timelines; coordinated with partners, university faculty, board members and students; managed recruitments, semester events, and leadership transitions

Badgers For Good UX Competition

Madison, WI

UX Designer

April 2026

- Redesigned the Healthy School Meals for All website in 8-hours, using user-flow mapping, wireframing, and interactive prototyping to simplify navigation, earning the Most Promising Solution Team Award
- Expanded the project beyond the original scope by prototyping a full-site redesign and an interactive advocacy map connecting users with state senator contacts and 3 ready-to-use outreach templates

MadCoder Club

Madison, WI

Project Lead

September 2025 – March 2026

- Initiated a four-person web project to explore how students could share and access dining hall feedback, collaborating on site structure, interface design, and development of the static front-end
- Planned server-side and survey-data integration and independently designed and deployed a personal portfolio website using HTML and CSS
